

Arkansas Central Cancer Registry (ACCR)

State Requestor Items/Fields

NAACCR Version 22 Layout

9/8/2021

The intention of this document is to provide vendors with the information necessary to implement state requestor items for the State of Arkansas. The listing below will provide the field ID (naaccrId), item number (naaccrNum), and parent element (parentXmlElement). As required by standards set by the North American Association of Central Cancer Registries, the Arkansas Central Cancer Registry will only except version 21 and forward files in NAACCR XML format. NAACCR version 21 files can still be accepted but any 2022 cases in a version 21 file will be rejected.

ACCR's User Dictionary for NAACCR XML version 22 is available from NAACCR's clearinghouse site or on our resources page at <https://adhcancer.arkansas.gov/>.

As of January 1, 2022, CDC-NPCR is requiring the collection of a new data item called Tobacco Use Smoking Status (item #344). The state-specific field Tobacco History (item #340), detailed here, is a patient level variable that is to be coded if the patient has a case prior to January 1, 2022. If the patient does not have a diagnosis prior to 2022 then this field can be left blank.

This document also contains code listings, format, and instructions for each field.

Field Name	Length	Item Number (naaccrNum)	XML ID (naaccrId)	XML Parent Element (parentXmlElement)	Notes
Tobacco History	1	340	accrTobaccoHx	Patient	This field is only required if the new field Tobacco Use (item #344) is not filled out as required for 2022+ diagnoses. Required by all facilities (except VA)
Alcohol History	1	350	accrAlcoholHx	Patient	Required by all facilities (except VA)
Family History of Cancer	1	360	accrFamilyHx	Patient	Required by all facilities (except VA)

Coding for alcohol, tobacco, and family history of cancer follow the ROADS 1998 coding rules.

Family History of Cancer

Code	Description
0	No
1	Yes
9	Unknown

Tobacco History

Code	Description
(blank)	Information entered in field Tobacco Use Smoking Status (#344) for a patient with a 2022 or later diagnosis
0	Never used
1	Cigarette smoker, current
2	Cigar/pipe smoker, current
3	Snuff/chew/smokeless, current
4	Combination use, current
5	Previous use
9	Unknown

Alcohol History

Code	Description
0	No history of alcohol use
1	Current use of alcohol
2	Past history of alcohol use, does not currently use
9	Unknown
